 - i. Change of Operation

This application must be signed by the current aircraft operator representative for notification on the following changes:

2. Aircraft owners/operators shall normally be required to provide electronic signatures on CAA Forms using commercially available applications. For those owners/operators who cannot use this method of providing an electronic signature, the hardcopy original of any scanned or copied Form SM 113 (if applicable) must be submitted to the CAA in person or by mail.
3. Aircraft Operator:
 - (a) **Commercial Air Transport** means a person, organization or enterprise engaged in or offering to engage in an aircraft operation. This can be the aircraft owner or a subcontracted operations organisation.
 - (b) **General Aviation/Private/RPAS** means the person or entity, not being an air carrier, who has continual effective disposal of the use or operation of the aircraft. The natural or legal person in whose name the aircraft is registered shall be presumed to be the operator, unless that person can prove that another person is the operator, or the person who at the relevant time has the management of the aircraft or exercises operational control of the aircraft.
4. Home base: Location where aircraft spends most of its time, if different from the operator's address.

The aircraft certificates/approvals may be affected and will be reissued depending of the type of change.
6. The certificates, when issued by the CAA, are rendered valid as the original documents in their digital form. They satisfy the on-board carriage requirements for aircraft engaged in international air navigation in accordance with Articles 29 and 31 of the Convention on International Civil Aviation as well as the requirements of Annex 7 and 8 to the same Convention.
7. In the case the aircraft does not hold an EFB approval, scanned copies of all the documents will be sent electronically together with a covering letter advising that these scanned copies are only a temporary measure and have limited validity.
